

# HAYMARKET HOTEL (Piccadilly/Trafalgar Square, London)

## HOTEL HIGHLIGHTS

*The Haymarket Hotel has 50 bedrooms and suites and an exclusive, fully serviced London townhouse with two to five bedrooms, sitting room and dine-in kitchen. The townhouse has its own private front door on a quiet side street and an entrance which connects to the main hotel. The Haymarket is housed in the former, elegant American Express building designed by John Nash in the late 18th century. Next door is the Haymarket Theatre Royal, one of John Nash's architectural gems. Both buildings are Grade One listed historical buildings. There are several connecting rooms and suites that are particularly popular with families. There is a bar and restaurant serving brasserie food, a conservatory and a library. On the lower ground floor there is a spectacular 55-foot swimming pool, a bar, a gym and treatment rooms. Both the hotel and townhouse feature Kit Kemp's fresh English style, blending contemporary chic with traditional pieces that work perfectly with the historical aspects of the building.*
